Reliance Jio is an Indian mobile network operator in Navi Mumbai, Maharashtra. It operates a national LTE network with coverage across all 22 telecom circles.

An Industrial visit to “Reliance Jio” was organized by Electronics and Telecommunication department under IETE-ISF on 7th September 2018. Twenty eight Electronics and Telecommunication branch students along with four faculties visited to Reliance Jio’s LDC and NOC centre, to interact with the Team to understand the current market scenarios, latest most demanding technologies & Future Products and Their applications. In this visit students were very eagerly waiting for listening to industrial authorities.

All students Reported at 10:30 am at JIO Gate F. The Representative of Reliance Jio Infocomm Limited LDC centre conducted very informative session for the students. She guided the students to select the areas like Home Automation over IOT, mobile application development & software testing, Telecommunication and etc. She also guided on Smart Car Technology and Home Automation using IOT which is their working technology.

Then students got opportunity to visit Reliance Jio NOC (Network operation center) where the information about LTE was shared by Mr. Raja Talwar, Head of NOC and Mr. Vinayak Kulkarni & Mr. Prashant Auradha Team members.

Then at last informative session was shared by Dr. Zia Saquib, Senior Vice president of Reliance Jio. The session was concluded with Question- Answer session. Many of the students asked different questions to the JIO Representative on current demanding technologies, market scenarios etc. and he cleared all the doubt and myths which was in students mind about the Technologies and Telecommunication sector. All students were satisfied after the session. The visit came to an end at 4:00 pm and students of Electronics and Telecommunication got an opportunity to understand live Software applications and importance of technology selection.
